AHDC Email Network – Funding Opportunities Related to Health Disparities
May 05 – 11, 2011

- 1) National Association of County and City Health Officials (NACCHO): Accreditation Preparation: Community Health Assessment and Community Health Improvement Plan Prerequisites Demonstration Project – Deadline: May 23, 2011
 - 2) Shutterfly Foundation: Nonprofit Programs Assisting Children and Families – Deadline: June 01, 2011
 - 3) DHHS, Substance Abuse & Mental Health Services Administration: Program Supplement to the Primary and Behavioral Health Care Integration Grants for Health Information Technology (HIT) Adoption in the Context of Integrated Care – Deadline: June 20, 2011
 - 4) American Academy of Pediatrics: Community Access to Child Health (CATCH) Planning Funds Program – Deadline: July 29, 2011
 - 5) Sara Lee Foundation: Food-Related Programs (Food Insecurity, Nutrition Education, Healthy and Active Lifestyles) – Deadline: January 1, 2012
-

1) National Association of County and City Health Officials (NACCHO): Accreditation Preparation: Community Health Assessment and Community Health Improvement Plan Prerequisites Demonstration Project – Deadline: May 23, 2011

Eligibility: local health departments

Purpose: to engage in a robust community health improvement process that yields exemplary community health assessments (CHAs) and community health improvement plans (CHIPs), two of the three accreditation prerequisites.

Number of awards: 12

Amount of funding: \$35,000 grant and comprehensive training and technical assistance

2) Shutterfly Foundation: Nonprofit Programs Assisting Children and Families – Deadline: June 01, 2011

Amount of award: \$10,000

Number of awards: 10

Purpose: to help nonprofit organizations working to provide children's education and family-wellness programs in communities where the company has operations. Grants are awarded for general operating

and program support.

Eligibility: nonprofit organizations operating in the following communities: San Francisco Bay Area (operating programs in San Mateo and Santa Clara counties); Mecklenburg County, North Carolina; and Maricopa County, Arizona.

3) DHHS, Substance Abuse & Mental Health Services Administration: Program Supplement to the Primary and Behavioral Health Care Integration Grants for Health Information Technology (HIT) Adoption in the Context of Integrated Care – Deadline: June 20, 2011

Funding Opportunity Number: SM-11-012

Expected Number of Awards: 56

Estimated Total Program Funding: \$11,200,000

Award Ceiling: \$200,000

CFDA Number(s): 93.243

Eligibility: limited to current Primary and Behavioral Health Care Integration (PBHCI) grantees

Purpose: to expand the use of interoperable electronic health records to increase the grantees' abilities to quickly identify both the behavioral health and primary care needs of their patients. It supports the grantees' provision of high quality clinical services that respond to the complete health care needs of their patients. As a part of the Draft National Prevention Strategy, it paves the way for the delivery of prevention services that link primary care and behavioral health needs, and allows the timely tracking of outcomes. The exchange of health information between PBHCI behavioral health providers and physical health providers, and the documenting and tracking of preventive health efforts across both settings, will improve the overall health of patients. This supplement supports the PBHCI program for improving the physical health status of people with serious mental illnesses and substance abuse and co-occurring disorders. It facilitates the integration of primary care services with the care delivered in publicly funded community mental health and other community-based behavioral health settings. DHHS's expectation is that individuals with serious mental illnesses and substance abuse problems will show improvement in their overall health status through a coordinated approach to prevention and treatment.

4) American Academy of Pediatrics: Community Access to Child Health (CATCH) Planning Funds Program – Deadline: July 29, 2011

Purpose: to develop innovative, community-based initiatives that increase children's access to medical homes or to specific health services not otherwise available. Grants available in the 2012 cycle include medical home access; access to health services not otherwise available; connecting uninsured/underinsured with available programs; and initiatives to address community barriers to immunizations. CATCH is seeking innovative community-based projects to improve access to

immunizations for children who are most likely to experience barriers.

Range of funding: \$5,500 to \$12,000. Pediatric residents can apply for resident grants of up to \$3,000.

Eligibility: pediatrician in the United States or its territories. The pediatrician must be significantly involved in proposal development and must lead the project.

5) Sara Lee Foundation: Food-Related Programs (Food Insecurity, Nutrition Education, Healthy and Active Lifestyles) – Deadline: January 1, 2012

Eligibility: nonprofits

Purpose: to create collaborative and innovative initiatives focused on fighting hunger. Food insecurity is a critical issue and significant consideration is given to programs that focus on food recovery, increased access to fresh produce and protein, meal programs when schools are not in session (as for many students, school lunch is their only meal of the day), and hunger awareness. Nutrition and nutrition education is also of significant interest, particularly in programs that distribute food provided by the government, so that information is available on how to prepare the food in healthy and nutritious ways. Finally, in taking a holistic view on issues of food, the foundation considers projects that deal with issues of food in relationship to healthy lifestyles through programs that address the need for increased physical activity.
